FRIDAY, JANUARY 26, 1877.

Greenbacks at the New York Gold Exchange yesterday closed at 94¢.

Mr. Eason of Connecticut, who voted against the only Democratic Senator, who voted against the Arbitration bill, and the announcement of the fact in the Connecticut Legislature yesterday was received with hisses from the Democratic side.

The general sentiment of Republicans in this city in relation to the election of Judge Davis as Senator is that they very much prefer him to any other man the opposition talked of or voted for. The popularity of Judge Davis extends far beyond mere party lines. It is believed that he will represent the people of the whole State rather than any faction therein.

The Italian House of Deputies has passed a bill which is obviously intended as a notification to the Pope that a little more deference to the dignity of the State will be insisted upon in his numerous speeches and manifestos. The bill makes it a penal offense to publish writings proceeding from any clerical authority concerning the laws of the State. This prohibition has an immediate effect on the clerical journals, and furious indignation among the publishers is the result.

There is an active effort making to throw cold water on the proposition to have the Citizens' Association investigate the Cameron & Ammons job-printing charges, in which it is alleged by the *St. Louis Zeitung* that they have defrauded the country out of thousands of dollars. It is reported that the Secretary of the Citizens' Association is not using any influence or efforts to have the alleged swindling investigated, and is not anxious to have the bottom facts exposed. We trust that these reports are without basis.

We print this morning a letter from Gen. PLEASON, of Philadelphia, the originator of the Blue-Glass treatment, the account of which in a recent issue of the *Telegraph* intimated such general interest and attention. Gen. PLEASON, responding to the many requests through our columns for more detailed information, generously volunteers to the public the benefit of his knowledge and experience on this subject, derived from extensive observation and numerous experiments, and we readers will not fail to properly appreciate the disinterested kindness.

The election of Judge Davis to the Senate will cause a vacancy on the Bench of the Supreme Court of the United States, and we suppose that in the whole circuit there is not the least question as to the propriety and justice of appointing Judge Tammis Darrow to fill that vacancy. Among lawyers we question whether there will be a dissenting voice, and among the people there will be an equal unanimity. Judge Darrow has borne himself so ably and so nobly in his high office that he has won universal confidence and admiration to an extent rarely equaled by any judicial officer.

The Chicago produce markets were moderately active yesterday, and generally easier. Mutton closed 20c per lb lower, at \$16.80 (\$16.82) for February and \$17.05 (\$17.10) for March. Lamb closed 7c per 100 the lower, at \$10.85 for February and \$11.05 (\$11.10) for March. Meats closed steady, at 6c for shoulders, boxed; 8c for short-ribs; and 9c for short-clear. Hogs were dull and easier, at \$1.05 asked per gallon. Flour was quiet and firm. Wheat closed 2c lower, at \$1.20 asked per gallon. Corn was quiet and firm. Wheat closed 4c higher, at 42c each and 4c for February. Oats closed 2c lower, at \$1.40 each and 25c miller flour.

ary. Hogs were dull, at 7c. Barley closed 1c higher, at \$1.05 for February. Hogs were in good demand, and were firm, at \$16.80 for 10c advance, sales making at \$16.00 per cwt. for unchanged, with sales chiefly at \$16.25 for 4.65. Sheep were dull, at \$2.75 per 100. One hundred dollars in gold would buy \$100.00 in greenbacks at the close.

The country may rest assured that in the Senate Judge Davis will be found always on the side of justice and the maintenance of the national authority. He will not justify nor extenuate the denial of legal or political rights and liberties to any class of citizens. He will not sanction fraud, violence, lawlessness, or corruption, and no party affiliation will cause him to waver in the least from the line of duty which justice and law shall prescribe. He will, at all times and on all occasions, fill the measure of duty and dignity becoming a Senator of the United States.

The entire IZELIAZIS Government of Mexico arrived in San Francisco yesterday, having taken passage on a Pacific mail steamer to escape capture by DIAZ. They had intended to disembark at Mazatlan and organize their Government there, but arrived just in time to find that DIAZ had gained the allegiance of the people of that region. IZELIAZIS and his party were very earnestly "wanted" on shore, but the Captain of the steamer refused to surrender them to be shot as rebels, and they sailed on to San Francisco. The Chief Justice-President and his Cabinet are expected to take the Pacific Railroad to St. Louis, thence to New Orleans, and thence to the States on the eastern side of Mexico, where they hope to find a favorable reception.

The SKATE PASSES THE BILL.

The Congressional measure regulating the count of the Electoral vote passed the Senate yesterday morning by a vote of 47 to 17—nearly three-fourths of all who voted. It is safe to predict that the bill will pass the House on Saturday by as large a majority.

Judge Davis will at once take influential and high rank in the Senate, not as a party man, for that will not be, but as a Senator of commanding ability, large experience as a lawyer, and a gentleman of pure personal and official character. Illinois may well be

pride of such a representative.

## VOTE ON THE ARBITRATION BILL.

The Arbitration bill passed the Senate, after a night's session, at 7 o'clock on Thursday morning. The vote stood—yeas, 47;

ABSENT.

DEMOCRATS—Anthony, H. L.; Ferry, Mich.; Harvey, Kas.; Hitchcock, Neb.; Lough, Ill.; Olesley, Ill.; Paddock, Neb.; Spencer, Ala.; Weddige, N. H.—2.

DEMOCRATS—Key, Tenn.; Norwood, Ga.—2.

TOTAL—Yeas, 47; nays, 17; absent or not voting, 11.

How these abstainers would have voted we do not know, but it is not likely that, had they been present and voted, the majority for the bill would have been reduced.

The debate in the House was opened yesterday by Mr. McCANNY, who originally moved the appointment of the Joint Committee, and many Republicans suspected him of harboring Democratic leanings, although on what evidence is not known. But his election yesterday to the Senate by the votes of the Democrats precludes his sitting with the arbitrators. He would not do it if he could, and he must not if he would. There remains Justice SWARTH of Ohio, How of New York, and BAXTER of New Jersey, to choose from. The former would be entirely acceptable to Republicans. All of these are moderate Republican antecedents.

A new complication has arisen in the various developments of the Eastern question. Persia has recently taken a position which goes to show that she has no special love for the Sultan and that, if Turkey gets into war with Russia, the Shah is bound to have some of the plunder.

He has already sent forty battalions of infantry, sixteen squadrons of cavalry, and three batteries of artillery to the Turkish frontiers with the intention, if war really breaks out, to make an attack upon Meshed-ut-Salam, usually known as Bagdad, upon which place Persia has always had a covetous eye. This new danger in Asiatic Turkey is not heretofore been considered, but it may play a very important part in the struggle.

One of the most eloquent and effective speakers in the House yesterday in support of the Arbitration bill was that of GLOVER P. HOAR, the Massachusetts Senator-elect. The speech of Mr. HARRIS, of New York, was not less interesting, as it contained a significant allusion to the programme which the Democracy had marked out in the event of the Senate's reserving it to its presiding officer to arbitrate on the bill.

The bill makes it a penal offense to publish writings proceeding from any clerical authority concerning the laws of the State. This prohibition has an immediate effect on the clerical journals, and furious indignation among the publishers is the result.

There is an active effort making to throw cold water on the proposition to have the Citizens' Association investigate the Cameron & Ammons job-printing charges, in which it is alleged by the *St. Louis Zeitung* that they have defrauded the country out of thousands of dollars. It is reported that the Secretary of the Citizens' Association is not using any influence or efforts to have the alleged swindling investigated, and is not anxious to have the bottom facts exposed. SENATE TRIAL.

SPRINGFIELD, Ill., Jan. 25.—When the Joint Committee adjourned this morning both parties were at the gates of peace, came in to "go it slow." Perhaps it would be more accurate to say of the two parties, was whether the Haines party was yet in. The only Haines party vote was cast by Senator Robinson, who voted for the resolution of the Joint Committee on the birthday of the Senator Davis, who was paid \$1,000 for his services. The Minister at Washington privately called on visiting cords according to "Shishkin," although he is not. But the泰勒斯 (Tylers) and other old-named people were as portable consequences that might come out of the party. Davis was confirmed on the 28th of January. Hinch's only child, daughter, is to change their name, in order to perpetuate the name with 131.

The respondent at Washington has been an enthusiast on Alexia. He has the force of a great man, they take nothing from him, and his head nod from the bottom of his eyes." This means probably that he has not blocked his book, or, since arriving in this country, to remove the Dugout Rock, which, opposite the lower tier, to become his body. The understanding is that he will be the transportation of Lake York for an aquarium. The independent people desire to get rid of the political party. Now that it is over, it may as well be confessed that the programme was an exceedingly thin one. It was the worst of the students.

## FINNCE AND TRADE.

The Financial Situation Monotonously Firm and Quiet.

Currency Shipments and Receipts Light.—Clearings \$2,500,000.

The Produce Markets Moderately Active, and Generally Easier.

Wheat Weak—Oats, Barley and Barley Kernels Lower—Provisions Take a Bowward Turn at the Close.

## FINANCIAL.

There was no change in the leading features of the business of the banks. Their loanable funds have been absorbed by the demands of the Board of Trade for carrying staff, and although the current applications for loans are not numerous the banks have their discount rates as high as they desire to meet the requirements of their customers. They were light. Yesterday however, we find the banks ready to accept their paper unless it is exceptional cases.

Rates of discount were \$210 per cent at the banks to regular customers. On the street, rates were quoted as upward.

The New York Stock was sold between banks at par \$212 per \$1,000 premium.

The clearings were \$2,500,000.

THE RECEIVER OF THE CONTINENTAL LIFE TO BE OVERHELD.

The order of Judge Pratt, of Brooklyn, on Monday, appointing William Allen Butler referee in the case of the Continental Life Co., very naturally has caused some commotion and searching inquiry into the past conduct of the Company and the present prospects of the policyholders. Mr. Butler is empowered to take testimony as to all the acts of the Receiver; to inquire in what manner the management of the Company have conducted its affairs, and to determine whether the officers are responsible for what has happened, and how this liability may be satisfied. The true intent of the order, in the language of the Judge, "is to afford an opportunity to all persons interested in the Company to make a searching investigation, and finally to determine whether the acts or omissions of the Company have heretofore been abandoned, misappropriated, mismanaged, or lost in any manner through negligence."

## BOSTON AND SILVER.

Resolutions against the adoption of silver as a legal tender have been passed by the Boston Board of Trade, and the Committee on Finance has arranged for an information conference to consider the question of remonetizing silver at a fixed relation of value to gold coins, and asks the President to advise the European Governments to participate in such consideration. The report embodies a long letter from our amanuensis to the State Department.

RANK AND INSURANCE SUPERINTENDENTS.

More than a quarter of the session of the New York Legislature has elapsed without any action having been taken with regard to the Banking and Insurance Departments. The Insurance Department has no head, and the Chair of the Banking Department is held over until a man is appointed. Under these circumstances the New York Herald calls on Governor Robinson to act by sending the names of capable and honest persons to the Senate for these offices, leaving to that body the responsibility of selecting them, if it wishes to do so.

THE DEPT OF NORTH CAROLINA.

The holders of North Carolina bonds have submitted a plan to the Legislature of the State for funding its debt, and creating a sinking fund for liquidating it. The recognized debt, aside from the bonds issued by the North Carolina Railroad Company, is \$1,000,000. The State now proposes to accept 6 per cent thirty-year bonds for 50 per cent of the acknowledged debt. The bondholders' Committee say on this point:

"Funded upon this basis the debt world, nominally, amount to \$1,600,000. The taxable property of the State is \$50,000,000, and the State approves amount to \$1,525,240.22."

SILVER MINING IN MASSACHUSETTS.

Over 200 tons of bullion have been produced by the Merrimac Silver Mine at Newburyport, Mass. The recent blast in the mine has developed a new vein, and it is reported that while the Company has hitherto been working.

## GENERAL NEWS:

The obituary notice of the *Advertiser* in yesterday's TRIBUNE was based on a misapprehension of the facts. He will appear as the afternoon organ of the Democracy.

At 4 o'clock yesterday afternoon Charles Bolar, 57 years of age, was run over by car No. 167 of the Indiana street line, in front of his residence, No. 334 Indiana street, and had his right leg badly broken at the ankle.

The temperature yesterday, as observed by Manasse, optician, 88 Madison street (Tansus Building), was at 8 a.m., 3 degrees; 10 a.m., 10½; 12 m., 17; 8 p.m., 27; 9 p.m., 27. Barometer at 8 a.m., 30.41; 8 p.m., 30.38.

An informal meeting of the Committee to draft plans of the proposed and anticipated site of the Cathedral of the Absentee Societies of Chicago was held yesterday at Masket Hall. The Committee will report to the grand convention to be held at 3 p.m. Sunday.

An unknown man in the name of the American Bridge Co. is working on the roof of the tower of the West Division Water Works, set to the floor, a distance of forty-two feet, and, alighting upon a steam-pipe, escaped with but slight injur, no bones being broken.

The annual service of the Cathedral Choristers of the Conversion of St. Paul at the cathedral of SS. Peter and Paul last night was a fine display of grand music. A long and interesting programme brought out the musical character of the choir, and was enjoyed by a large audience.

John Ahrens, 40 years of age, residing at No. 74 Mohawk street, while turning his ice-wagon out of the track in front of the car-stable on Elmhurst avenue, and one wheel of the vehicle passed over his head, injuring him badly. He was attended by Dr. Jenner, who thought the injuries were not dangerous.

A series of resolutions and resolutions adopted at a semi-annual meeting of the citizens of South Evanston are to the effect that certain saloon-keepers are selling liquor in the said village, and the authorities are trying to bring it up; wherefore a committee has been appointed to bring the matter to the attention of the town board.

At a semi-annual meeting held on the 24th instant, the officers of the local government for the ensuing term: President, A. Holinger; Vice-President, J. F. Bandler; Recording Secretary, C. Adler; Financial Secretary, E. V. Weller; Corresponding Secretary, H. Mock; Substitute, G. Keller; and C. Werner; Director, O. Leo; Vice-Director, A. Holinger.

John B. Gough, the great temperance lecturer, lectured at the Tabernacle last evening under the auspices of the World Christian Temperance Union to an audience which filled the capacity of the building. Before the lecture came upon the platform the doors were closed, and hundreds were turned away. His subject was "Buddhism," and he made out of it a most interesting and entertaining lecture. The management, it is estimated, cleared \$4,000.

The Mexican War veterans association held their monthly meeting at the Sherman House last night, Mr. C. E. Orlin in the chair. After the reading of the minutes of previous meetings, there were two reports, one of a bill introduced in the Senate, and another of a bill now before the United States Senate for the granting of a pension of \$50 a month to the survivors of the Mexican War, and a motion that the Senate be influenced so that they would vote favorably for the pension. The Chairman announced that he had obtained the verbal promise of Senator Lodge and Teller that they would vote for the pension on that score. After several remarks had been added to the membership roll, and some routine business transacted, the meeting adjourned, however, to the call of the Chairman.

There appears to have arisen some confusion in regard to the identity of "Paulina," the author of many popular hymns that have played a conspicuous part in the services of the church and the world. The tributes offered in memory of the late Mrs. Blis and his wife on New Year's Eve were full of eulogies, but Mr. Gough, of Boston, spoke of her as being a "famous gambling-house singer." He was the only one who mentioned her name, and he did not say that she was a famous singer.

Policeman Reardon yesterday stated that he found seven persons in the rooms; that there was a poker-table and a trap-door in the room, and he immediately reported that he had done some work under the order of the Board before, inquired: "How much did you pay for your former job?" The answer to this was, "Nothing." He was asked if he had ever worked in the house, his excuse being that he had not been informed of his appointment on the Committee. Whether he will act or not remains to be seen.

The County Board has never yet failed to do its duty in holding post-mortem examinations notwithstanding the fact that the brother of Commissioner Holderen for that work at an annual salary. The Coroner incurs these bills just as he incurs all other expenses in the work, his traveling expenses, his board, and hundreds are turned away.

His subject was "Buddhism," and he made out of it a most interesting and entertaining lecture. The management, it is estimated, cleared \$4,000.

ONE SHALL BE TAKEN AND MANY LEFT.

The case of the poker-players who were captured in the place of Mike McGuire, No. 178 Twenty-second street, two weeks ago, came up at the Assembly yesterday afternoon, and was at last disposed of. It is needless to say that none of the gentlemen appeared. Even Smith, alias A. S. Tracy, was there. The only one who was present was McGuire, who declined to go to the trial. The defense was that he was playing for fun, and the court adjourned.

Commissioner Fitzgerald yesterday notified the Hogan Investigating Committee, of which he is Chairman, to meet him Tuesday at 10 o'clock, to conference the investigation.

Mr. Tracy was not present to testify in the work, his excuse being that he had not been informed of his appointment on the Committee. Whether he will act or not remains to be seen.

The County Board, however, did not do its duty.
